Claim Rejections - 35 USC § 103

1. Claims 19-24,27-31 are rejected under 35 U.S.C. 103(a) as being unpatentable over Ahlinder (6,033,444) in view of Hahn et al (5,131,981).

Ahlinder adds a mixture of C.I. pigment violet 19 and C.I. pigment blue 15 to the paper pulp, which is made into paper. The mixture of pigments an enhanced whiteness, the same objective as in the present invention. Hahn et al teaches pigments are conventionally provided or used in the form of an aqueous dispersion in the form of a dispersion with a surfactant, column 5, lines 18-24. Hund et al further teaches that it is advantageous to add a cationic polymeric "fixer". These cationic polymeric fixers are notoriously well known as retention aids or coagulants. In fact they are the same cationic polymers disclosed in the present specification.
